

CONTINENTAL 750

YouTube

Balfor's Continental 750 Special ranks among the largest high productivity firewood processors on the market. With the ability of cutting up-to 70cm in diameter and with a splitting force of 50 tons, it is able to perform in all situations.

The continental 750 is equipped with high-capacity wheels and a drawbar with hydraulic foot to be easily moved within the work site. As standard there is a 2.5 metre log deck with chains to advance the logs.

It comes with work lights for working in poor visibility. Roller conveyor with motorised metal rollers. Double splitting wedge 18 and 28 pieces that can be changed in a few seconds via hydraulics. Minimum length of cot is 25 cm to 65 cm maximum. Operator works on the raised platform for greater visibility and control of the machines functions.
