

SHARK 700 C

SHARK 700 EM

SHARK 708

SHARK saws are the result of careful research and decades of experience in the manufacturing of professional saws. SHARK is the only saw that can cut logs over 30 cm in diameter, they also allow great visibility when cutting providing safely without obstructing the view of the cutting operation. They come with saw holder, adjustable rear blade guide, WIDIA blade, 3-belt drive (not 220V), vacuum system, emergency brake and double log grip handle mounted on bearings are just some of the features that make SHARK a superior product. Like all Balfor products, Shark complies with the latest safety standards.
